

**IT'S TIME  
TO TRANSFORM  
YOUR FACTORY**

# CONNECTED TO PEOPLE, FACTORIES AND MARKETS

E80 Group is an Italy-based multinational company that develops **leading automated and integrated intralogistics solutions**, tailored to global consumer goods manufacturers and distribution centers. Serving primarily the food, beverage and tissue sectors, the Group boasts a rich legacy of innovation dating back to the 1990s, when it pioneered the vision of **Industry 4.0 - the smart, sustainable and connected factory**.

E80 Group expertise lies in leveraging advanced technologies and in understanding their customers' intralogistics flows to optimize operations across the supply chain. Their **customized solutions** are designed to streamline every phase of the production and delivery process, ensuring the highest levels of efficiency and productivity.

To better support its customers spread around the world, the Group has established **14 subsidiaries in different countries**. In addition, E80 Group provides consulting and round-the-clock digital after-sales services to ensure **sustainable** and **long-term performance** of plants.

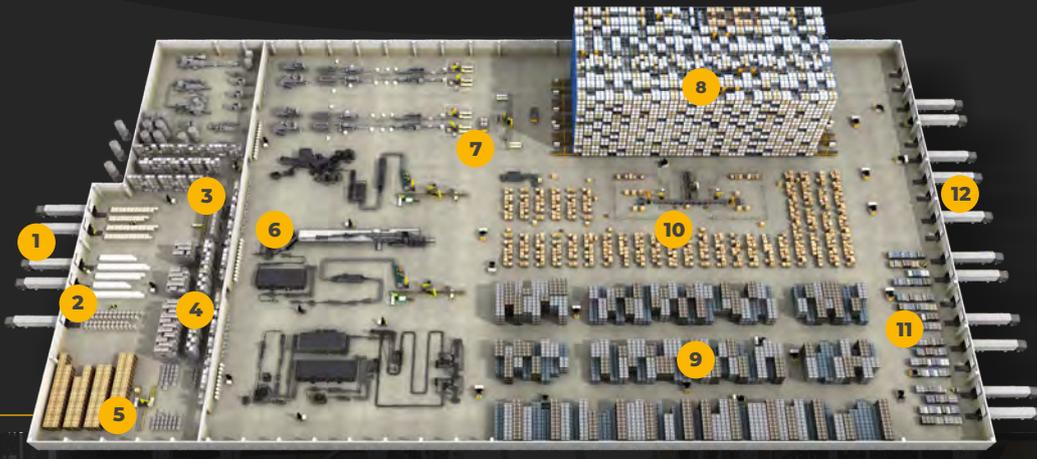

# AUTOMATED AND INTEGRATED END-TO-END SOLUTIONS

Following a data-driven approach, E80 Group's **modular and scalable solutions** are empowered by SM.I.LE80 - Smart Integrated Logistics, the **unique software platform** that connects systems and flows to provide end-to-end traceability of products from inbound raw materials to warehousing and shipping. These interconnected solutions effectively tackle diverse challenges, optimizing operations, and guaranteeing **safety** across the supply chain.

With a remarkable track record, E80 Group has successfully completed more than **450 integrated factories** worldwide and installed more than **2,800 robotic systems, 9,000 LGVs** and numerous **high-density automated warehouses**.

**EVERYDAY, E80 GROUP SOLUTIONS HANDLE
