Our Logistics Solutions

Transportation

We deliver safe and reliable logistics and fleet solutions across Saudi Arabia. With decades of experience, we specialize in bulk transport of fuel, chemicals, and industrial goods—driven by safety, efficiency, and nationwide coverage.

Warehousing

From open yards to chemical and temperature-controlled facilities, our Warehouse Management also includes skilled manpower and material handling equipment to support your warehouse operations.

Freight Forwarding

Our freight forwarding team provides seamless door-to-door logistics across the GCC and beyond. We manage all modes of transport — sea, air, and land — ensuring your cargo moves smoothly every step of the way.

Petroleum

Our petroleum division operates more than 1,200 petrol stations across the Kingdom, making us the largest network in the country. We feature our RFID-equipped pumps for fast, electronic, and cashless transactions.
